DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 6 (New)

(Line 4): After "partition of" Please *delete* --"hydrophobias" -- and *add* --
"hydrophobic"--.

(Line 7): After "type" please *delete* the un-identifiable marks.

(Line 9): After "a layer" please *delete* extra spacing.

Claim 7 (New)

(Line 3): After "0.2", please *add* --"MPa"--

Authorization for this examiner's amendment was given in a telephone interview with Attorney I. Zborovsky on 10/11/06.

It is to be noted that Claim 6 (line 7) has the hand written word "type", and should have been initialed by the Applicant, but probably was inadvertently omitted.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

A method of complex treatment of diesel fuel, comprising the steps of heating diesel fuel; homogenization and separation in a centrifugal force field in a rotor-disk vortex apparatus; fine filtration at a filtering porous partition of hydrophobic material, said heating of diesel fuel including carrying out the heating during a process of circulation in a closed circuit including a heat exchanger and the rotor-disk vortex apparatus of an open type; additional filtration carried out by a multilayer filter reactor comprising granules of multifunctional catalyst, alkylating aromatic compounds, and a layer of transitional metals or transitional metal oxides, is not taught or fairly suggested in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Prem C. Singh whose telephone number is 571-272-6381. The examiner can normally be reached on MF 6:30 AM-3:00 PM.

Art Unit: 1764
